# ***ENHANCING COLLABORATION:*** ***Increasing Action in Preventing Domestic Violence in California*** ***A Workshop for Domestic Violence Advocates and Faith Community Leaders*** ***(DVAFCL)***

---

Let's work together to prevent domestic violence in our communities. Discover how your faith group and advocacy agency can share resources, outreach, educational efforts, spiritual guidance, counseling, support services, and increase collaboration to reduce domestic violence. Develop a strategic plan outlining the next steps in preventing violence in your community!

These workshops, held in communities throughout California, are based on the curriculum, *Enhancing Collaboration: Responding to and Preventing Domestic Violence in California: A Workshop for Domestic Violence Advocates and Faith Community Leaders*, and are conducted by graduates of Transforming Communities' Training of Trainers Program.

Come with a team including at least one domestic violence advocate and one faith community member. Call the contact person for the corresponding workshop for suggestions about forming a team.

---
